

## ACADEMIC PROGRESS &amp; LEARNING OUTCOMES

# A score shows what went wrong. An explanation shows where to help.

Students need focused questions that uncover their thinking, subject-grounded explanations and another chance to practise.

01

**Explain**

Answer a genetics question in your own words.

02

**Investigate**

Jev assesses reasoning; targeted probes resolve uncertainty.

03

**Coach**

DeepSeek and a subject knowledge base guide the next step.

04

**Check**

A different question updates the session.

**Working today**

3 Classical Genetics concepts · 6 questions · source-grounded feedback · diagnostic follow-ups · guided retries · personal progress.

**Validate next**

Faculty-label consented examples. Test unseen questions, per-label errors and later recall before claiming learning impact.
